

## Purpose

The *Powder Horn* course is designed to expose older youth and adult leaders in BSA to safely conduct outdoor/high adventure activities of a fun and challenging nature. It provides an introduction to the resources needed to successfully lead their crews and troops through a program of outdoor adventure. The course is based upon giving participants an exposure to some outdoor/high adventure activities and not a certification event. It is for any youth or adult interested in experiencing a unit-level high adventure program. The purpose of a Powder Horn course includes:

- ❖ Safe participation in fun and challenging outdoor activities
- ❖ Introduction to resources to improve unit programs
- ❖ Exposure to new and exciting high adventure activities
- ❖ Help deliver the promise at the unit level
- ❖ Promoting youth and adults creativity when delivering high adventure programs

## Activities may include:

Archery	Astronomy
Backpacking	Canoeing
COPE	Climbing & Rappelling
Conservation	Cycling
Equestrian	Emergency Preparedness
Geocaching	Kayaking
LNT	Plants & Wildlife
Sailing	Scuba
Shooting Sports	Wilderness First Aid
Winter Sports	Wilderness Survival

Participants are encouraged to take part in all activities, however "Challenge by Choice" will be followed throughout. Participants will not be forced to engage in any activity in which they feel uncomfortable.

Many Venturers, older Boy Scouts, and adult leaders face the dilemma of having a strong desire for challenging and fun outdoor programs, but lack the knowledge and/or resources to do so. Powder Horn responds to the quandary with an exciting training opportunity that exposes participants to a wide range of outdoor/high adventure activities. More importantly, Powder Horn assists them in delivering the promise of Scouting's high adventure to youth.

## Learning Objectives:

After completing this course, the participants should have sufficient introductory information to provide the following outcomes:

- \* Introduction to a variety of resources necessary to provide a robust outdoor program
- \* Knowledge of how to identify local resources and consultants for high adventure activities
- \* Knowledge of the health and safety requirements of the BSA as they apply to the outdoor programs
- \* Knowledge of the rules and regulation of the BSA as they apply to outdoor programs

*Note:* This course is not a total training program with enables the Scouting unit members (youth & adult) to be an expert or even self-sufficient in any aspect of outdoor skills. Units will most likely still need knowledgeable, trained, and certified individuals (consultants) to help conduct a safe outdoor/high adventure program.
